RECEIVED

APR 6 2006

JOHNSON CITY ENVIRONMENTAL
ASSISTANCE CENTER

Permit to Construct or Modify an Air Contaminant Source Issued Pursuant to Tennessee Air Quality Act

Date Issued: August 31, 2005

Permit Number:

Date Amended: March 27, 2006;

AMENDMENT

958324P

Date Expires: November 1, 2006

Issued To:

Bristol Metals, LP

Installation Address:

390 Bristol Metals Road
Bristol

Installation Description:

Surface Coating Operation
One (1) Spray Booth.
Exhaust Filters as Control

Emission Source Reference No.

82-0032-07

The holder of this permit shall comply with the conditions contained in this permit as well as all applicable provisions of the Tennessee Air Pollution Control Regulations.

CONDITIONS:

1. The application that was utilized in the preparation of this permit is dated June 17, 2005 and is signed by Mark Copeland, V.P. Manufacturing for the permitted facility. If this person terminates employment or is reassigned different duties and is no longer the responsible person to represent and bind the facility in environmental permitting affairs, the owner or operator of this air contaminant source shall notify the Technical Secretary of the change. Said notification shall be in writing and submitted within thirty (30) days of the change. The notification shall include the name and title of the new person assigned by the source owner or operator to represent and bind the facility in environmental permitting affairs. All representations, agreement to terms and conditions and covenants made by the former responsible person that were used in the establishment of limiting permit conditions on this permit will continue to be binding on the facility until such time that a revision to this permit is obtained that would change said representations, agreements and covenants.

(conditions continued on next page)

TECHNICAL SECRETARY

No Authority is Granted by this Permit to Operate, Construct, or Maintain any Installation in Violation of any Law, Statute, Code, Ordinance, Rule, or Regulation of the State of Tennessee or any of its Political Subdivisions.

NON-TRANSFERABLE

POST AT INSTALLATION ADDRESS

2. Volatile organic compounds (VOC) emitted from this source shall not exceed 0.63 tons per month during the first eleven months of operation, and shall not exceed 7.5 tons during any period of twelve (12) consecutive months.
3. Particulate matter emitted from each exhaust's stack shall not exceed 0.02 grain per dry standard cubic foot of stack gases (3.1 pounds per hour).
4. The as-supplied VOC content of all VOC-containing materials to be used by this new source shall be determined as follows:

All Coatings, Inks, Adhesives, Thinners, and Solvents - from Material Safety Data Sheets (MSDS) or manufacturer or vendor formulation data which explicitly list the VOC content by weight.

The results of these determinations shall be compiled in the following tabular format or an alternative format which readily provides the same required information. This table, along with MSDS or other supporting documentation for each material to be used, shall be maintained at the source location and made available for inspection by the Technical Secretary or his representative, beginning within 180 days of initial start-up. If new materials are used, or if material formulation is changed, the table shall be updated within 90 days from the initial date of usage of the new or altered material.

Process Material Description	Material Density (lb/gal)	VOC Content (lb/gal)
Material #1		
Material #2		
etc.		

5. A log of all VOC-containing materials used shall be maintained at the source location. The permittee shall calculate the total VOC emitted from this source during each calendar month and maintain records of these emissions in a form that readily shows compliance with Condition 2 of this permit. (See example below) This log must be maintained at the source location and kept available for inspection by the Technical Secretary or his representative. This log must be retained for a period of not less than two (2) years.

Process Material	Usage (gal/month)	VOC Content (lb/gal)	VOC Emitted (ton/month)
Material #1			
Material #2			
etc.			
Total:			

6. Visible emissions from the stack(s) shall not exceed twenty percent (20%) or greater opacity as determined by EPA Method 9, as published in the Federal Register, Volume 39, Number 219 on November 12, 1974. (6 minute average)
7. This permit shall serve as a temporary operating permit from initial start-up to the receipt of a standard operating permit (regardless of the expiration date), provided the operating permit is applied for within thirty (30) days of initial start-up and the conditions of this permit and any applicable emission standards are met.

(conditions continued on next page)

8. The permittee shall certify the start-up date of the air contaminant source regulated by this permit by submitting

~~A COPY OF ALL PAGES OF THIS PERMIT~~
with the information required in A) and B) of this condition completed, to the Technical Secretary's representatives listed below:

A) DATE OF START-UP: ____ / ____ / ____
month day year

B) Anticipated operating rate: ____ percent of maximum rated capacity

For the purpose of complying with this condition, "start-up" of the air contaminant source shall be the date of the setting in operation of the source for the production of product for sale or use as raw materials or steam or heat production.

The undersigned represents that he/she has the full authority to represent and bind the permittee in environmental permitting affairs. The undersigned further represents that the above provided information is true to the best of his/her knowledge and belief.

Signature		Date
Signer's name (type or print)	Title	Phone (with area code)

Note: This certification is not an application for an operating permit. At a minimum, the appropriate application form(s) must be submitted requesting an operating permit. The application must be submitted in accordance with the requirements of this permit.

The completed certification shall be delivered to the Compliance Validation Program and the Environmental Field Office at the addresses listed below, no later than thirty (30) days after the air contaminant source is started-up.

Compliance Validation Program
Division of Air Pollution Control
9th Floor, L & C Annex
401 Church Street
Nashville, TN 37243-1531

Johnson City Field Office
Division of Air Pollution Control
2305 Silverdale Road
Johnson City, TN 37601-2162

(end of conditions)

The permit application gives the location of this source as 37.20° latitude; 82.10° longitude.

March 27, 2006, this permit is amended to extend the permit's expiration date to November 1, 2006.

SENDER: COMPLETE THIS SECTION

- Complete items 1, 2, and 3. Also complete item 4 if Restricted Delivery is desired.
- Print your name and address on the reverse so that we can return the card to you.
- Attach this card to the back of the mailpiece, or on the front if space permits.
